As a Company & as Individuals, our Love for People is what renders us as the Pace Setters in our space! It Propels us to deliver Hands-Down Jaw-Dropping Magazine Design & Development. But that's just the beginning... At **FIRSTBORN MULTIMEDIA**, We're ReThinking the Meaning of a Great & Wholesome Education System across the Region. Just like a First Born child is tasked with the responsibility of nurturing younger siblings, We've taken up the burden of Mentoring all the students we encounter as we Work, during Speaking Engagements, Counselling Meetings & School Events' Service Provision. Our Team & Partners passionately expose them to the wide world of Journalism, Computing, Entrepreneurship, Morals & Spirituality, Dating & Relationships, Diverse Careers, Gifts, Talents & more.

Our Satisfaction is in raising Young, Successful Adults! This is our Heritage... This is why you should Believe in us!

## The Chief Editor's Note

**T**he Eye Opener is back again for this year's edition in a big way and it feels quite a thrill to take my place as the chief editor to invite you to read and enjoy our publication.

"If you want to change the world, pick up your pen and write," said Martin Luther once, I'm happy we are able to witness an array of talents of the staff and students of our school all combined and being able to be viewed in turning of pages. So many people, so many different ideas and so many different perspectives just lead me to thinking of how diverse we actually are and yet we find ourselves the best way to express. Nothing can encompass and convey our emotions and will better than our art, thus the collection herein embodies our passion for our school and the people in it. We give you the first of its kind and we trust that the articles will bring you much satisfaction, contented overviews of the school and enjoyment.

I identify with emotions that each page portrays and looks upon the magazine as an entity. I almost feel that it sells its own story. It talks about our school with the pride of a mother and takes pleasure for each passing year.

Here lies a humble hope that you will enjoy and appreciate.

**Henry Momanyi** - Editor in chief

## Associate Editors Desk

A magazine like a child or a school year is a continual work in progress. It readjusts as it matures each evolution a subtle refinement of the last. Through out the process a core set of values remains just as a young adult is inextricably linked to the newborn or the last day of school is to the first. In the same light, the 2023 edition of “The eye opener” is undoubtedly an evolution of previous editions.

**Mrs. Muasya Cecilia**

*Associate Editor.*

There is no doubt that this year’s Eye Opener Edition is a phenomenon. As such, it is a delight to commend all the contributors for their effort towards realising this magnificent publication. To our readers, it is my hope you will find it wonderful and captivating. As Lloyd Alexander puts it: keep reading. It is the most marvelous adventure that anyone can have.

**Ms. Kala Dorcas.**

*Associate Editor.*

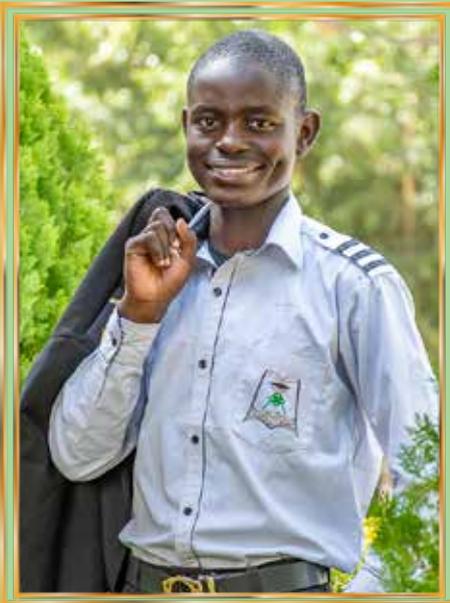

The Eye Opener 2023 Edition pulsates with life and bursts with energy. Our passion and hard work breathed life into this project and made it possible for us to write stories that relate and complement each other with one goal in mind which is to unleash full potential bestowed in us. The richness of experience can be felt by opening through the pages of this magazine. Enjoy this, folks!

**Pascal Liku**

*Associate Editor.*

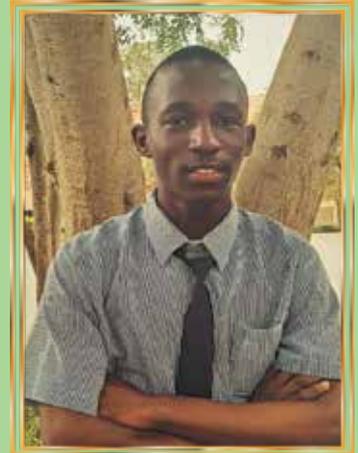

# Students' Editorial Chair

**Felix Muuo** - Chairman, Editorial Board

**Wayne Given**  
Deputy Chair, Editorial.

**Jacob Jeremiah Chowa**  
Secretary General

**J**ambo, it's another opportune time for the Eye Opener to challenge the status quo and emerge as fiery butterfly ready to flutter its wings and create waves.

We started the exhilarating journey striving to create content that ignites your passion, stimulates your intellect and leaves you craving for more. As I reflect our journey I am deeply humbled by the support and enthusiasm shown by our readers. It is your unwavering commitment that fuels our passion and dedication. And to my support team with whom we worked tirelessly to ensure each issue resonates our audience.

The eye opener 2023 edition enables you to explore innovative storytelling, interactive content and multimedia platforms to captivate our audience and

disseminate information effectively.

To be an eye opener, we must be agents of inspiration and by that we shall celebrate stories of resilience, compassion and progress.

Diversity is the heartbeat of our editorial philosophy. We embrace all diversities outstanding in our pluralistic society of Makueni Boys' right from tribes, races, religious inclinations and culture.

With the determination and purpose, we continue to tell our story. A story that inspire and open eyes. All the ripples of appreciation to the Almighty Deity. May God bless Makueni Boys. May God bless Kenya.

**Felix Muuo**  
Chairman, Editorial Board

Editorial Board

## Chief Principal

*Mutua F.M.*

I am delighted to contribute to this edition of the 'Eye Opener'.

The Chief Principal's office is proud to be associated with the Eye Opener Magazine which has for many years served as an effective vessel for networking, sharing and disseminating information about the various activities carried out in this school. I am very thankful to the editorial team led by the chief editor Mr. Momanyi for their timeless efforts in ensuring that the 'Eye Opener' magazine is published year after year.

Makueni School has grown and continues to grow in different areas. Presently, the school is 8 streamed with a student population of 1744. There are 74 members of the teaching staff and 50 members of the non-teaching staff. The continued growth of the school has posed and continues to pose challenges in infrastructure and income generation. I sincerely thank the parents, BOM, the National and County governments together with other stakeholders for rising to the occasion whenever called upon to facilitate the infrastructural expansion of the school.

Special appreciation goes to the parents and the BOM for always honouring all our invitations and working in harmony towards the development of the school both physically and academically. With this team working, the agreed upon school projects which include construction of more classrooms, computer laboratories, more library space, clean energy and new ultra-modern administration

block among others will be realized in the long run.

Academically, Makueni Boys prides itself with setting pace in the region. The 2022 KCSE candidates did us proud by posting a mean score of 8.37, with 289 of the 321 candidates representing 90.03% of the total candidature proceeding to university. We will continue providing high quality and affordable secondary school education. We are working towards an even sterling performance in the 2023 KCSE. This will be achieved, for we have planned and prepared well. May God bless the candidates and guide them through the examination.

The school has excelled in co-curricular activities this year, competing upto Regional and National levels in Science and Engineering Fair, Athletics, Ball games, Drama, Music and Mathematics contests. One of our students, Okoth Oduor was the best student nationally in the Kenya Mathematics Olympiad.

Congratulations to the teachers for being duty conscious and working hard, the students for exhibiting high standards of discipline and tenacity of purpose, the BOM, PA and N.T.S for steering Makueni Boys' towards growth and excellence.

May the Almighty God bless us all.

***Mutua F.M. - Chief Principal***

## Deputy Principal (Administration)

*Albert Musyimi, Deputy Principal (Administration)*

**“Strength does not come from winning.**

**Your struggles develop your strengths.**

**When you go through hardships and decide not  
to surrender, that is strength.”**

**-Arnold Schwarzenegger-**

**2023** has been a year of change. The school has witnessed a transition from one administration to another. The new administration has turned our fear to hope, lethargy to enthusiasm and pessimism to optimism. It has been our year of bouncing back indeed.

Still reeling from the effects of covid – 19, term 1 began late in January and saw the release of 2022 KCSE results. The school registered an improvement in KCSE and our journey to bouncing back started in earnest.

Good performance and improvement has been the mantra for the year. True to form, we have bounced back in many areas. In sports, we took three composite teams to the regional level: Hockey, Basketball and Rugby 7s in term 1. In term 2, and for the first time ever, the football team went all the way to the finals while the Rugby 15, were in the semis for the county championships. In Music we took the biggest number of participants to the National level. The science fair had equally performed well earlier on in term 1.

The new administration has been a big inspiration to both teachers and students. The cohesiveness and the sense of revival experienced this year can only help the school to scale the new heights of excellence. Without any fear of contradiction, I can say the year has been like no other for as long as the collective memory of the school goes.

The discipline of students has likewise seen an improvement. MBR (Movement by running), a concept introduced in term 2 has helped students save on time. Generally speaking, discipline has been misunderstood to mean a term limited to school only. It is also not a weapon in the hands of teachers/parents to control children/adolescents. It is not a suppression or means to assert one’s authority. On the contrary, discipline is an intrinsic motivation in an individual to control oneself, one’s emotion and desires in order to live in a uniform and orderly manner.

In our school, we have done our best to help the students discover this intrinsic motivation to know that it is for their own good. That rules and regulations are for the benefit of everyone in the school community and larger society. We have also been creative in helping the modern learners to be disciplined. This, we believe will produce wholistic individuals who will serve God and humanity.

And so as we look forward to the years ahead, we are full of hope, energy and a new sense of purpose. The future of the school is bright.

*Albert Musyimi, Deputy Principal (Administration)*

## Deputy Principal (Academics)

**Josphat Maluva**, Deputy Principal (Academic)

*“Like a tree, knowledge grows”*

**T**here goes the school motto. It been the living principle in our day to day life in Makueni Boys’. It’s the engine behind the success in academic for boys at Makueni boys. Boys come and leave having grown in knowledge just like a tree does. For many years Makueni boys has been a Centre of academic excellence. It has produced boys who have gone out to become great people in the society. It has not been easy but we have managed to overcome all challenges and emerged winners. The school has continually recorded wonderful results in internal exams. Teachers and students have all been working hard. This coupled with report from different stakeholders. We have managed to shine academically year after year. Early this year we celebrated wonderful results in KCSE posted by the class of 2022. The school mean improved from 8.265 B - in 2021 TO 8.371

### Analysis: KCSE 2022

A	A-	B+	B	B-	C+	C	C-	D+
2	26	51	64	64	57	21	10	1

This year’s KCSE class has set a target of 9.34. The class is focused and is hoped to achieve this or even go beyond.

### Members of the department:

Mr. Maluva J	-	Deputy Principal academics
Ms. Mailu D.	-	Dean of Studies
Ms. Katei E.	-	Senior HOD academics
Mr. Ngumu C.	-	Results analysis
Mr. Momanyi H.	-	Examination administration

My special appreciation goes to all those working tirelessly to ensure that our school still remains an academic giant. We remain focused and faithful to our spiritual theme of the year bouncing back though faith and hard work, we shall be there.

**Josphat Maluva**

Deputy Principal (Academics)

## Dean Of Studies

*Dorothy Mailu - Dean of Studies*

**T**he mark of excellence is realized in the field of play - Harry G.

It is a privilege to contribute to this year's edition of the Eye Opener. I thank God for the protection and grace which has been sufficient all the time especially in the difficult times. Testing in every learning institution is very key and the department has ensured high standards are maintained. The teachers have done their work of setting and marking the examinations within the stipulated time. They have gone an extra mile of ensuring that time-takers are encouraged for better performance in subsequent examinations. This has led to minimizing of poor grades in both internal and KCSE examination.

This year the school has a KCSE candidature of 377. The class is focused and the school is doing everything possible within its means to ensure that the students excel in the final examination. Several strategies have

been put in place to help the candidates realize their set targets.

I thank all the teachers and other stakeholders for supporting the programs in the department. For in any learning institution, academics is the field while examination is the play where a winner is known.

The department has the following dedicated and committed members who most of the time go out of their way to make sure that nothing goes wrong.

1. Mr. Maluva J.
2. Ms. Mailu D.
3. Mr. Momanyi H.
4. Mr. Ngumu C.

Long live Makueni Boys' School and May God bless Makueni Boys' fraternity

*Dorothy Mailu - Dean of Studies*

## Dean Of Students

*Mr. Wasonga*

High school is a time to learn and grow. Exposure to diversity of ideas, people and activity is crucial to a well refined education. If you reach out that is what you will find at Makueni Boys High School. The school promotes students learning through services, programs and opportunities that will allow you to balance your intellectual, physical, emotional social and spiritual growth. The office of Dean of students is dedicated to supporting the well-being, growth and success in a caring atmosphere. These effects are done through educational programming, collaborative partnership and a commitment to inclusion and equity. To this end, some of the values the office advocates for includes;

**Community:** We support a community that develops relationships through empathy, compassion and respect.

**Learning:** We seek greater knowledge and promote the diversity of ideas through experiences

**Responsibility:** We value an environment where we are all accountable for our actions and recognize the impact we have on ourselves and the community.

**Equity:** we promote an environment that foster the opportunity for students of all identities and backgrounds to succeed.

Finally I wish to bring to your attention that our goal as a department is to promote students individual growth, facilitate constructive engagement and encourage the development of life skills that will help them to succeed well beyond their time in Makueni Boys

*Mr. Wasonga - Dean of Students*

## Senior HOD - Academics

*Elizabeth N. Katei*

God is almighty and good to us all the time. Makueni Boys is a great school that has prepared young wholistic men who have served humanity very well.

Education is basic and should be of good quality and relevance.

The school has a wide curriculum offering sixteen subjects. Teachers of Makueni Boys have good professional conduct and have implemented the curriculum well. They have given quality teaching to the learners. They have used our equipped library as a resource centre. Teachers have professional documents, which are updated.

Evaluation system is excellent and students have done quality exams. Educational aims, goals, objectives and targets are very key in curriculum supervision and implementation. As a school, this has been our priority. The Deputy Principal Academics has been very instrumental in enabling the school to offer quality teaching and learning. He has done it because of being empowered by our able chief, principal, Francis Mutua who values Academics.

Through quality curriculum implementation and supervision, quality assurance has protected the value and reputation of Makueni Boys. It has ensured the Students are well prepared for their careers.

In summary quality teaching and learning has promoted accountability, transparency attitude change and educational excellence.

**“we are who we are because of our attitude”**

Report compiled by:

*Elizabeth N. Katei - Senior HOD, Academics*

# ADMINISTRATION BLOCK

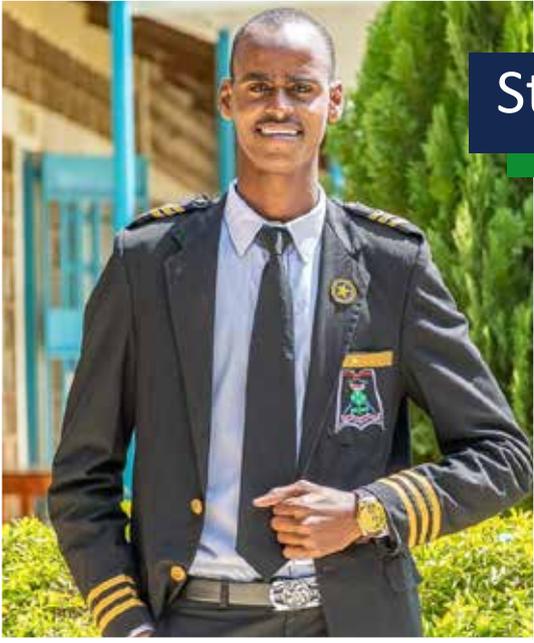

## Teaching Staff Welfare

**Mr. Munywoki .P. - Chairman**

**T**hank God, and to Him be the glory. The school has grown in terms of the teaching staff over the years. All the teachers in the school are members of the welfare which is a strong pillar in the school. The welfare has stood with its members both in difficult times and happy times. Teaching is a demanding profession with significant source of stress and emotional commitment required. The teachers welfare has come in handy in engaging members with recreational activities that helps in alleviating stress and making teachers more resilient and able to cope with the demands of their profession effectively. This has been made possible through organizing school staff trips, parties and congregations regularly. This reduces anxiety and combat feeling of burnout improving the overall mental well being. The committee, being in their

last term in office, can look back with joy at the achievements attained so far. As the chairman of the welfare committee, I can say that the teachers are motivated and always ready to venture in their day to day school activities. Special gratitude to the chief principal for creating a good working environment. May God bless our beloved school. The committee is constituted as follows.

- |                  |   |                         |
|------------------|---|-------------------------|
| Mr. Munywoki .P. | - | <i>Chairman</i>         |
| Ms. Ndambuki C.  | - | <i>V/Chairman</i>       |
| Mr. Muthengi F.  | - | <i>Secretary</i>        |
| Mr. Ndeti J.     | - | <i>V/Secretary</i>      |
| Mrs. Mutunga F.  | - | <i>Treasurer</i>        |
| Mr.Wambua F.     | - | <i>Canteen operator</i> |
| Ms.Tulu F.       | - | <i>Member</i>           |

## Student's Council Chairman.

**Yussuf Ibrahim - Student Council Chairman.**

of ours. I would have simply laughed off. Simply because it would have appeared like a farfetched dream. From a young age, I desired to serve and give back to my community.

Being born in a family of three and spending most of my time with my extended family, I learned that people needed inspiration than any material gain. That people needed inspiration are not fine speeches but swift actions.

When I received my admission letter from this school, I was met with mixed reaction but with time pride and love for the name Makueni Boys' overshadowed my anxiety and fear.

I desired to raise the name of my school to the next caliber and make its name a force to reckon.

Through the Almighty Allah, my colleagues, supported me and shared the vision I had for this institution. The reforms I have overseen in this school are just a stepping stone for what is yet to come. Looking towards the future a fire still blazes in me to be the voice of the unspoken: To be the home for the lost and to bring change to county 004 and this nation at large. God bless Makueni boys. God bless you.

**Yussuf Ibrahim – Student's Council Chairman.**

**Bismillah rahman rahim**

**I** take this privilege with immense pleasure. All gratitude serves right to the Almighty Deity for it is evident that none of this would be possible without Allah

Words are not enough to express the far the chief principal has gone to make this school an epic of knowledge. He has become an icon not only to me but to all of us. He has given us the real definition of a role model and inspiration. Long live Sir F.M. Mutua.

When I see Makueni Boys', I see brothers who subscribe to the notion that "united we stand" and in the words of Abraham Lincoln: a house divided cannot stand.

Few years ago, I could hardly believe if anyone told me that I would be the captain of this remarkable institution

**Student's Council**

## Library

I appreciate the Lord for yet another chance to contribute in this magazine. The sanctuary of knowledge has been a cradle of success where learners carry out extensive revision. I would like to appreciate the chief Principal for the transformation in the library in terms of procurement of top notch revision materials and books. The library boasts an extensive collection of materials e.g. Books, career guide Magazines and reference materials. The extension of operating hours to include evenings and weekends has been a booster since learners have more time to read from the library, hence we remain optimistic about improvement in examinations. The library also provides

an ample room for ICT integration for English lessons since it is well fitted with the smartboard and sockets, which allow for Powerpoint presentations.

I appreciate the dedicated librarians who work tirelessly to meet the learner's demands conveniently. I am quite grateful to their teachers and the learners for their co-operation and making use of this special facility. The two library prefects have also been valuable to the department.

In a nutshell, I call upon school fraternity to explore this treasure trove of knowledge and discover the wonders it has to offer.

**Ms. Jane Mutua - HOD Library**

**Librarians: Joseph Musyoki & Catherine Moses**

## NEMIS ...

The IT office deals with, NEMIS, TIMIS and KUCCPS registration. NEMIS deals with registration of learners for Unique Personal Identifier (UPI) which the ministry uses for tracking of learner capitation to schools as well as Edu Afya policy which enables students access to health services in public schools through NHIF. TMIS is Teacher Management Information System and is domiciled at TSC. It captures the school data including enrollment, subject allocation and workloads to teachers. On KUCCPS, we register students for university placement. We also produce examination results.

**Franklin Wambua - Incharge of NEMIS**

## English Department

*Ms. Joshua S – H.O.D.*

English is both a subject and the medium of instruction in many other subjects. Its good performance therefore impacts positively in the overall mean score of the school. With this in mind, the teachers in the department work tirelessly to ensure that it is well performed in KCSE. In the 2022 exam, we realized a positive deviation from 7.8 to 7.9 and we are looking forward to improving further this year. There are several programs put in place and I am quite confident they will help us improve our performance.

I appreciate the teachers in the department for their hard work and dedication throughout the year. Our sincere appreciation goes to our chief principal for the immense support he has accorded to us both mentally and morally.

### The department has the following teachers:

1. Ms. Joshua S – H.O.D.
2. Mrs. Makunu P –H.O.S
3. Mr. Musyimi A.
4. Ms. Mailu D.
5. Mrs. Makoma S.
6. Ms. Mutua J.
7. Mrs. Muasya C.
8. Mrs. Mutunga F.
9. Mrs. Mutinda E.
10. Mrs. Kaloki M.
11. Mr. Liku P.
12. Ms. Kyalo R. (T. P.)

## Ripoti Ya Idara Ya Kiswahili

**Bi. Ndambuki C.** - Mkuu wa Idara

Lengo kuu la idara hii sio tu kuboresha motokeo ya somo la Kiswahili kitaifa pia tunalenga kutoa hamasisho kwa wanafunzi ili waionee fahari lugha ya Kiswahili na kukisema kwa ufasaha na usanifu wake.

Matokeo katika mtihani wa kitaifa yameendelea kuwa bora. Mwaka wa 2021 alama ilikuwa 8.73, 2022 alama ilikuwa 9.78 na 2023 tunabania alama ya 9.90. Tumeiweka mikakati kubambe ili kufikia malengo yetu ikiwemo ufunzaji ambao unaungwa na utafiti. Maandalizi ya warsha, kongomano na majadiliano ya wanafunzi yanayohusisha shule zingine tajika pomaja na mashindano ya uandishi wa insha.

Ninawapongeza sana walimu na washika dau wote kwa kujitolea, ushirikiano na utendakazi wa kupigiwa mfano. Nina matumaini makubwa kwamba endapo wanafunzi kwa upande wao watatia juhudi na kujiepusha na baadhi ya changamoto zinazohujumu jitihada za walimu kama matumizi ya “sheng”, “shembeteng” na kuzembea kusoma na kudurusu, matokeo yataendelea kuwa bora zaidi.

Natamatisha Kwa kushukuru usimamizi wa shule chini ya mwalimu mkuu kwa kuunga idara mkono kwa hali na mali. Natoa hakikisho kwamba tutafanya kila tuwezalo ili tufikie malengo ya idara.

Asante

**Bi. Ndambuki C.**

**Mkuu wa Idara**

**I**dara Ya Kiswahili ina walimu wafuatao:

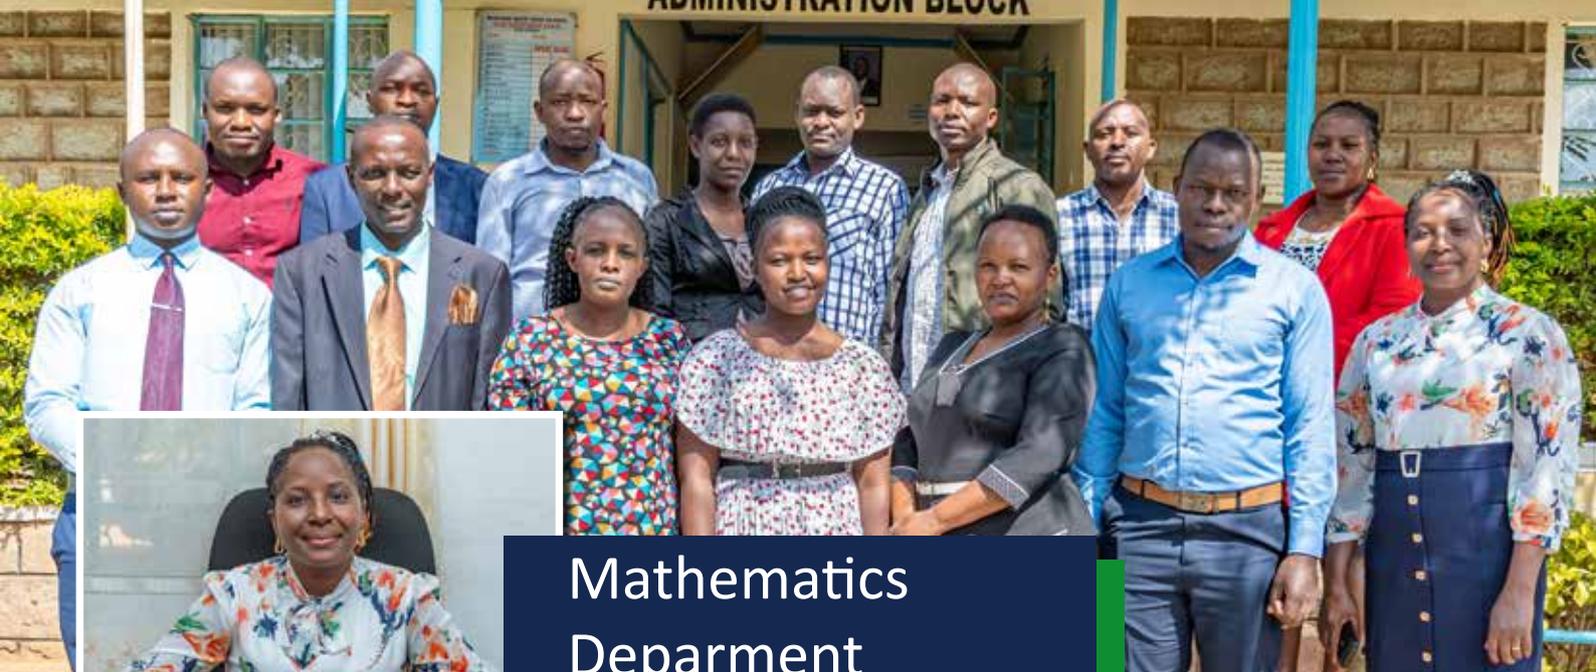

1. Bi. Ndambuki C. - H.O.D.
2. Bi. Boore V. - H.O.S.
3. Bw. Momanyi H.
4. Bw. Kimeu M.
5. Bi. Mwanzia L.
6. Bi. Tulu F.
7. Bw. Jamal M.
8. Bi. Ronge R.
9. Bw. Mwakavi C.
10. Bw. Wanjohi J.
11. Bw. Mutinda H.
12. Bw. Makori (T.P)

Kwa muda mrefu somo la Kiswahili na fasihi lilikuwa chini ya idara ya lugha. Idara hii ilijumuishwa na kiingereza. Lakini shule illipoendelea kutanda na kuwanda baada ya kuwa shule ya kitaifa, ilibidi somo la Kiswahili lijisimamie kama idara kwa sababu ya ongezeko ya kazi.

## Mathematics Department

*Mrs. Musau Dorothy*

I thank God for granting me yet another opportunity to participate in this year's edition.

Mathematics as a subject plays a very significant role in career placement and hence its importance cannot be gainsaid. Our students have proved that mathematics is not as difficult as perceived and that with constant practice, hard work and dedication, good grades and high mean score are achievable.

Involving our students in various mathematics contest competitions such as international CEMASTEVA contests, KIMAJET contests and Mangu National mathematics contest have renewed a sense of optimism which has triggered improved positive attitude towards mathematics in our school. Mathematics champion's promoters have been encouraged to take charge in promoting performance of mathematics in the school and thus play an active role in fermenting the culture of mathematics. Our good performance has been contributed by among other factors:

1. Immense support from our chief principal

2. Early syllabus coverage
3. Team teaching
4. Exposure to both internal & external mathematics contests
5. Administration of many Exams
6. Motivation to both students & teachers

New measures are in place to ensure good performance in mathematics. A mathematic hour every Thursday (7:30 pm-8:30 pm), Sunday (6:30 pm- 8:30 pm) and a Good morning mathematics (4:30 am- 5:00 am) will make our students utilize and enhance their skills in speed and accuracy.

I thank and appreciate the very able team of competent, dedicated and hardworking teachers who are steering the department to greater heights. Many thanks to the chief principal for his immense and continued support to the department

# Science Department

*Mrs. Ngumbao - HOD*

Thank the Almighty God for taking us this far. We are a great department dealing with Chemistry, Biology and Physics Subjects. Innovators, doctors, engineers and other science oriented professionals are made in this department Bravo our teachers and students for the top notch ideas and academic excellence Our students have posted good mean grades in KCSE over the years.

In Science and Engineering fair and Interswitch 'Spak' competitions we have been well represented nationally. I would like to appreciate the commitment, professionalism and teamwork displayed by the teachers in discharging their duties. Human resource is the most important in an organization as it is the only thinking resource.

The school administration has give us support by providing all the teaching and learning resources. We sincerely appreciate. God bless us all

## Technical And Creatives Arts

and also to be creative and innovative so as to fit in the technical field.

**W**elcome to the Technical and Creatives Arts department.

The department comprises of six subjects Agriculture, Business Studies, Computer Studies, Music, French, Art and design.

The department has played a key role in boosting the overall school academic mean score in the year 2022 as tabulated below.

	2022	2021	Dev
<b>Computer Studies</b>	11.1628	11.4688	-0.2972
<b>Agriculture</b>	11.1`558	9.5333	+1.6225
<b>Art and Design</b>	8.82386	8.8235	0.00
<b>Music</b>	7.5	6.7692	+0.7308
<b>Business Studies</b>	7.3372	9.4698	-2.1326
<b>French</b>	6.375	8.15	-1.775
<b>Departmental mean</b>	8.7257		

### Our department is guided by the following strategies:

1. Early syllabus coverage through team teaching and peer teaching.
2. Cultivating positive attitude to the learners towards the various subjects.
3. Continuous evaluation of learners and marking through conveyor belt system.
4. Regular departmental meeting to plan and evaluate department activities and academic programmes.
5. Mentor the students towards achieving their goals

The department comprises of the following teachers who have demonstrated a lot of dedication and professionalism in carrying out their duties

1. MS Kavisi J. - HOD
2. Mr. Ngumu - HOS, Computer Studies
3. Mrs. Japheth - HOS, Agriculture
4. Mr. Wasonga HoS Art & Design
5. Mrs. Mutua - HoS Business Studies
6. Mrs. Ronge - HoS French
7. Mr. Wanjohi - HoS Music
8. Mrs. Kyalo R.
9. Ms. Bore J.
10. Mr. Otieno E.
11. Mrs. Mathew
12. Mr. Muyanga A.
13. Mr. Shivonje D.
14. Mr. Mutunga
15. Ms. Kwamboka M.

I most sincerely want to appreciate the administration and all other stakeholders who have supported the department.

Together we win

**Ms. Kavisi**

**HOD Technical and Creative Arts**

## Humanities Department

*Mr. Muyanguku - HOD Humanities*

We thank God for the 2022 KCSE results. As we attained the following mean score:

Subject	Meanscore
C.R.E	8.46
History	8.23
Geography	10.65
I.R.E	6.00

We appreciate the collective and individual input by the candidates and subject teachers, whose sacrifice and commitment led to posting good results in KCSE 2022. We also appreciate and thank our administration for their valuable role in providing leadership, captained by chief principal.

In conclusion, allow me to remind everyone that in Gods eye, you have unlimited potential and possibility. Therefore get up, get out, get free and move to your destiny. Avoid all that distances your attention and keeps you from living your fullest potential in every stage of life.

Remember there is a time and place for everything and having emotional intelligence to understand when and how to act is very important. God bless you and keep you safe.

### The humanities teachers include:

Mr. Muyanguku M. (HOD)	Cyprian W.
Mr. Mutinda H. HoS, History	Ms. Mutuku M.
Mr. Ndetei J. HOS, Geography	Mrs. Mbatha R.
Ms Kala D. HOS, CRE	Mrs. Ms Itambo E. Ms. Mwanzia L.
Mr. Maluva J.	Miss Mercy M.
Mr. Ndetei J.	Ms. Boore V.
Mr. Mutinda H.	Ms. Koech V
Ms. Tulu F.	Mr. Jamal M.
Mr. Mutune S.	Mr. Mangua Z.
Mr. Wasonga M.	Mr. Momanyi H.
Mr. Mutuse J.	Ms Agatha C.
Mr. Kimeu M.	Mr. Mwakavi
Mr. Nzuki J.	

*Mr. Muyanguku - HOD Humanities*

## Music Club

In regards to the Almighty Deity we are grateful to have the Music Club in our school. It is not only a way of spending leisure but also a field of learning as it also impacts important life skills like confidence, how to voice and express yourself as well as discipline. From the school anthem to the day's hymn and it flows like a river where force is the passion and commitment of our school. For our endeavors, we have travelled far beyond our school walls and have made

known the name of Makueni Boys High School with the stature and standard it accords. Nonetheless we have also seen the support of the school in funding our activities and purchase of new music instruments which add to our song and melody. In music we don't survive we flourish and keep forging onwards.

### Members are:

1. Mr. Wanjohi J. - Patron
2. Ms. Joshua S - Assistant Patron

3. Ms. Boore V.
4. Mrs Ronge R.
5. Ms. Tulu F.
6. Ms. Mutua J.
7. Mrs. Kaloki M.
8. Mrs. Mutinda E.
9. Mr. Mutunga M.

**By Patron: Mr. Wanjohi J.**

# Boarding Department

*Mr. Mutune - Boarding Master*

**H**ere comes another opportunity to contribute to this year's The Eye Opener. We thank the Almighty God as a department for the success so far.

We appreciate the MB City fraternity for the immense support towards the department. The department is run by:

- i. One boarding Master
- ii. Two deputy boarding Masters
- iii. House Masters
- iv. Two boarding secretaries
- v. Thirty three house secretaries

The members have tirelessly continued to serve the students towards preparing young holistic men now and in future. With their help, the boarding department has been assisting to streamline students and providing them with best:

- Accommodation
- Meals

- General wellbeing of the learners
- This has contributed not only to success of the school but also to the personal development and academic excellence of the students.

I wish to thank the administration for the continued support to the department led by the able Chief Principal who introduced use of moppers and detergents during Saturday cleaning. This has made cleaning more efficient in order to see as run a smooth stay for the boys. We believe optimism as always is the faith required for achievement.

**Members are:**

- Mr. Mutune - *Boarding Master*
- Mr. Kimetu - *Deputy Boarding Master*
- Mr. Munywoki - *Deputy Boarding Master*

## Games Department Mr. Muia - HOD

We in this great department in our school begin by thanking our Almighty God for care and protection as we do all we do outside class work.

I would wish to most sincerely, appreciate our Chief principal for been there to support us timely and appropriately. Thank you so much sir.

To my able assistants Mr. Mutuse and madam Kala: your input is wonderful.

My great coaches, without you all I am writing in my sports desk would be null and void. Allow me to encourage you to do even better going forward.

To my young leaders in the making, my games secretary; Felix Mutinda

and the assistant Brian Kyunguti. you raised the bar in terms of students management. May God grant you the chance to showcase this rare talent in a bigger and better jurisdiction.

Our teams performed so well this season.

Our Rugby 15's . Basketball 5 aside, Hockey team made a statement at the Regional games played at Meru school in term one games.

Our soccer team was the giant killer in term 2 games beating the regional games champions in the previous edition out of business at group stage. They pulled through to play in the finals against Matiliku in Kisayani secondary school losing narrowly due to injuries.

Better days are yet to come starting next year.

Our Rugby team was ranked position 4 in the county.

Indoor games had a fair share of recognition in the county games with table tennis and lawn tennis navigating all through to to the semi finals.

Our handball team registered a fourth finish in the county games which is a great improvement lately

We featured well in athletics losing at the county level.

Basically and statistically our games department made one of biggest steps in the right direction

We promise to deliver even more come next year God willing.

## Guidance and Counselling Report

**Stella Makoma, HOD**

Guidance and counseling is an important part of our lives in a dynamic society. Guidance means to make somebody aware or show the way. It involves bringing to the attention of target audience what lies ahead. On the other hand counseling implies helping someone who finds themselves in a predicament in a school setup. It comes in handy to help everyone in the community navigate through the challenges that life brings.

The students who are the target audience go through a lot in achieving their goals and objectives in their academic journey. The current generation has a lot of issues that threaten to deter if not destroy the great potential that needs to be fully exploited. The advancement in technology has impacted the generation both positively and negatively. While a student can get very constructive materials courtesy of the internet, there is also the danger of accessing very toxic materials that derail their journey to a promising career.

Some of the effects of unrestricted access to internet could lead to watching pornographic stuff, getting exposed to the use of drugs and substance abuse, watching movies that have warped values that contradict the virtues of our society and such ideas may not be helpful to the youth that are growing. The parent at home should put their best foot forward and know that times have changed.

When the teacher is left alone to give guidance and counseling on both academic and other areas of the life to a young person then it becomes a great challenge. It should be done right from home upto the school. Be concerned about the exposure to any material that is not beneficial to the young.

In the same way, the young people should also understand

the reality of the mantra; if it is to be it is up to me.

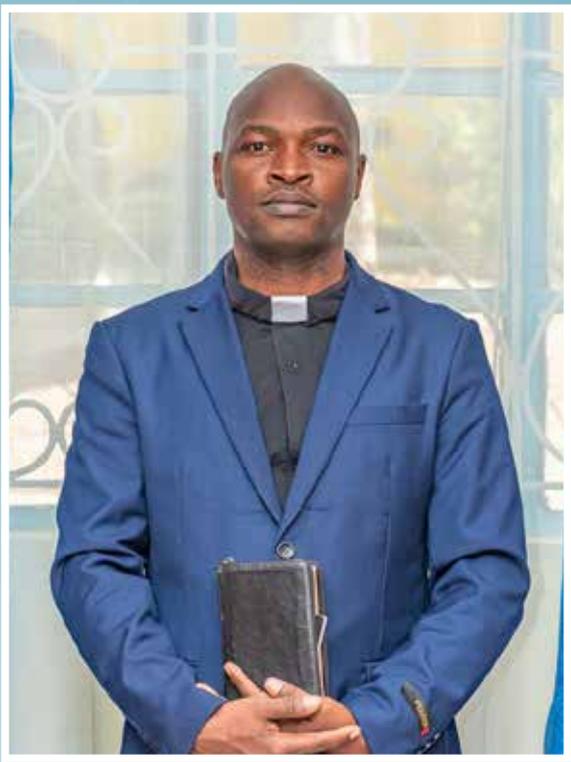

There are no challenges that can overwhelm a person who has decided that success comes after sacrifice and self discipline. Daniel was a young person in the Bible who was taken as a captive to the land of Babylon. He makes a personal choice that sees him serve with excellency and integrity in the foreign land. He served in the reigns of four different Kings and did maintain his faith and excellent service. **Daniel 1:8** *“But Daniel resolved not to defile himself with the royal food and wine, It takes a personal choice to do differently in every generation.”*

Finally as the generation wallows with the effects of technological advancement it is upto us as mentors to mid-wife the next generation. It is a daunting task that requires sacrifice, commitment and passion but the results are quite rewarding. Thanks to every adult out there who has the heart to see a difference in the lives of our young people. It takes a deliberate action to point out to them the direction they should take to get a stable life in the future.

I take this opportunity to thank the team in Makueni Boys who give themselves to assist the boys.

1. Mrs. Makoma S. - HOD, Guidance & Counselling
2. Mr. Muyanguku M.
3. Mrs. Musyoki M.
4. Mrs. Mutunga F.
5. Mr. Ndetei J.
6. Mr. Shivonje D.
7. Mr. Mutunga M.
8. Mr. Otieno E.

**By Stella Makoma, HOD**

**Pst. Kivuva F.** - (The School Chaplain)

# Chaplaincy Department

leader whom God has placed children under, to hear and see that they are doing well, 2 John 1:4 *"I have no greater joy than to hear that my children walk in the truth"*. All this achievement is through the support of the administration teachers, parents, the school sponsor (AIC), patron and students officials in various societies.

Under the chaplaincy the school has various programs to support the spiritual growth of the students. These includes:

- Weekly worship services for the main religious affiliated groups i.e Protestants, Catholics, SDA and Muslims presided over by the chaplain or visiting priests.
- Weekly school devotion services for all the students.
- Termly/periodic special themed school prayers and worship meetings for the whole school.
- The normal society meetings organized by the four society patrons i.e CU, YCS, SDA and Muslim
- It is my greatest pleasure to entrust our school in the safe hands our God always. Glory to the Almighty for all His Grace to the school. May God bless Makueni Boys'. Shalom.

**I** take this golden opportunity to thank the Almighty God for His sufficient grace in the spiritual matters of the institution. The school theme for the year 2023 is "Bouncing back" taken from the book of Job 14:7, and as a school we believe we will be able to realize our goals to be the leading institution, producing boys ready to serve God and humanity.

My greatest objective as the current school chaplain is to see great men, grounded in the word of God leaving the school after their four years stay here. As a learning institution, the main focus is on academic excellence. However, we very well understand that without the right morals gained through spiritual guidance, many talents end up to nothing.

In Proverbs 22:6 the bible says that *"Train a child in the ways he should go, and when he is old he will not turn from it.."* The best way any person can go is the God's way, living a life that pleases your creator and the people. Children are not things to be molded, they are people to be unfolded, therefore showing the right direction is always very important. That is what we train our students here that regardless of your religious affiliation, all our actions, speeches and conduct should be acceptable before the eyes of our Creator.

It is the joy of every parent, guardian, teacher and any

## Clubs And Societies Department

I salute you all in 2023 Eye Opener Edition. As the leader of clubs and societies I express my gratitude to the chief principal for providing the tools and resources for fulfilling our duties.

We have embraced the spirit of inclusive leadership

in clubs management by expanding the teams of teachers allocated per club .We have also introduced a coordination parade on Wednesday before breaking for club activities.

In our strategic plan for the coming academic year we shall review the club constitution to align them with the new changes in government policies and expanding school population.

We have currently 25 clubs in operation in our busy and successful school with over 1700 students. We shall continue to provide opportunity to our learners and patrons.

Our clubs have participated in variety of events, won competitions at local and national level.

God bless all our gallant patrons and the school administration

**Mrs. Makunu P. - H.O.D**

**Mr. Kiiti F. K. - D / H.O.D.**

# AMANI CLUB

**A**s the name suggests, we are all about peace in our institution focusing on inclusivity, excellence, volunteering and respect for one another. Amani Club is the brainchild of NCIC in conjunction with the ministry of education and Teachers Service Commission.

Launched in June 16th 2022, Makueni Boys Amani club has been on the fore front to ensure a litter free Makueni Boys. Our main activities are essay-writing, debates for peace and marking the international day of peace.

We look forward to a Makueni Boys where learners embrace Alternative dispute resolutions (ADR) methods,

relate harmoniously, appreciate our religions, cultural and linguistic diversity, are disciplined and have shunned violent extremism and radicalization.

Quote: Arthur Helps- (an English writer) - Tolerance is the only real test of civilization

Be our peace champions wherever you go

Thank You

**By: Mrs. Mutunga. F. - Club Patron**

## YOUNG FARMERS CLUB

**Y**oung farmers club is undoubtedly one of the most active clubs in the school owing to the dedication and sacrifice of the members.

The club's activities and programmes are vital not only for the general performance of the subject but also for mastery and attainment of skills to make the members to be productive future farmers. The club has managed to change the notion that agriculture is a preserve for the poor and old. The club is committed to see the engagement of young people (students) productively in Agriculture. Since many do not see the prospect in Agriculture due to frustration by the traditional labor intensive methods of farming which offer very little return, getting students' involvement in

the club has not been an easy task. The world's population is projected to increase to 9.7 billion by 2050 and therefore 50% more food will be required to feed this population. With the world's population growing young every day, we cannot afford to have students and generally the youth shun agriculture; not so when we are faced with the threat of climate change.

The club has incessantly maintained part of the school farm and the green house. The club would wish to thank most sincerely, the HOD Clubs and the administration for the unwavering support which has seen the club's stability.

**Mrs. Japheth Lilian – Patron**

**Mr. Evans Otieno – Deputy Patron**

# CLUBS AND MOVEMENT

Journalism Club

YCS Club

Mental Health Club

**M**ental health includes our emotional, psychological and social well-being. It affects how we think, feel and act. It also helps determine how we handle stress related to others and make healthy choices. The club being the new sheriff in town was formed upon realizing that the youth form the majority of those grappling with mental illness; the issue of global and international concern. This club offers a variety of services such as counselling therapy, peer support groups educational workshops and community outreach programmes. The goal of the club is to create a safe and inclusive space where individuals can openly discuss their

mental health concern without stigmatization, receive support and guidance and work towards improving their overall wellbeing.

The club under the good leadership of the team of teachers, aspires to engage the students through programmes that are geared towards actualizing healthy mental state.

# Students Bursaries and Scholarships

**G**lory to God for his continued grace over the years. The school has quite a large number of sponsored students by various Banks, organizations and several counties. The students come from challenging backgrounds but they have continued to receive financial, social and material support from their sponsors and well-wishers.

We have had quite a number of mentorship programmes organized by the various sponsors aimed at empowering the students with skills, values and competences focusing on their moral and academic performance. The school has a "TOUCH A LIFE KITTY" whose main financiers are the parents. This kitty assists in giving bursaries to very bright but needy students with huge fee balances. This term we were able to give bursaries to eight students worth KShs. 148,181. The students' fraternity also give generously their extra shopping and basic item. This really assists the needy students who come to school with no shopping.

I really thank all the banks, organizations and counties who have put a smile on the face of that student whose future seemed dark, but now they can remain in school and see their dream become a reality. Special appreciation to the chief principal and all the teachers who helped a form 1 boy to settle when he reported to school with nothing except his admission letter. God will never forget that act of kindness. Not forgetting the BOM members has taken a boy to fully pay for his school fees whole amount was over ksh 120,000.

We still have many needy students who have huge fees balances and need financial support. If God grants you an opportunity to assist, do it with a cheerful heart, for you may be assisting the future president of this country.

"TOUCH A LIFE TODAY "

GOD BLESS YOU.

*By Mrs Dorothy Musau*

## SCAD REPORT

**T**he student's campaign against drugs [SCAD] has been one of the best clubs in the institution in the recent years. Its activities includes;

- Creating awareness on drug abuse by putting posters in the school compound
- Engaging teachers and students in spreading the vital information on the concern of Drug and substance Abuse

It is not only a thematic project supporting adolescents to abstain drug abuse, but also considers one's health and counters negative peer influence. It generally seeks to address young ones physical and mental health.

Its overall goal is to enable teens acknowledge their full potential through acquisition of knowledge and psychosocial support services.

During the national SCAD day, entertainment activities like singing, dancing and reciting and embracing a theme of the day which is generally about mental sobriety. Article and Essays are also submitted both under the theme of the day.

SCAD generally helps check the growing use of drugs and promotes mental sobriety for efficient learning and early future preparations. Amongst the youths God bless SCAD.

*Mr. Mutune S. - Patron*

# PRESIDENT'S AWARD KENYA (P.A.K) REPORT

## Our vision

To be leading youth brand in Kenya and the international award

## Our Mission

To develop and drive quality programmes that equip young people with leadership qualities and lifelong skills to inculcate core national values for responsible citizenship.

- In our school we assist the needy students by contributing items towards Tabitha Baskets where the rest of the school can collect the items if in need.

- We participate in visiting the needy children homes, cleaning hospitals and market places
- We undertake three levels where participants are awarded with bronze silver and gold award certificates.
- The gold awards certificate is awarded at state house by his Excellency the president of republic of Kenya who is our patron.

*Mrs. Mutua D - Patron.*

## ENVIRONMENT CLUB

Through the club we anticipate for better lifestyle with a clean environment in our great institution. However, human activity has recently changed the natural balance by neglecting the environment. This is by organic loading such as sewage, human wastes agricultural run-off and among others. This has affected a number of assets such as water quality and climate change. But to counter this we have numerous programs such as planting exercises, functional exercises where we gather as a team and get educated about the importance of keeping the environment clean.

Great appreciations to the patrons of the club Ms. Tulu and Mr. Kimetu for the great contribution and dedication towards the club and all the members of the club. And

most importantly the prevention of environment pollution must therefore be a priority to sustain a clean environment.

*By Brian, (Yobi) & Evans (Mtapeli) 3C*

*Patron - Ms. Tulu F. and Kimetu E.*

# CHRISTIAN UNION (C.U)

**Harrison Mutinda – C.U. Patron**

The Christian union is under the umbrella of Kenya Christian Fellowship (KSCF).

The vision of KSCF is to create a generation of role model Christians, having godly values, playing active and positive role in church and the society. The guiding principle and scripture has been. **Acts 2:32**, *“This Jesus God has raised up, of which we are all witnesses.”*

In that light, the mission statement of KSCF is to lead students in secondary schools and colleges in Kenya to Jesus Christ as a savior, mature in him and equip them for effective service, mobilize and empower workers for effective service among the students.

In Makueni School, the Christian union is guided by the above KSCF principle and mission statement. It has a working model, which is created to bring holistic growth to the body of Christ. There are five pillars, which guide the Christian union internally:

- The word of God
- Prayers
- High praise and worship
- Giving
- Fellowship

We have tailored programs that are workable to students, which make them grow in Christian faith.

## Colossians 1:28

**Him we preach, warning every man in all wisdom, that we may present every man perfect in Christ Jesus.**

These programs are as follows:

**Night prayers** 9:40pm-10:00pm every day except Saturday.

**New believers class** 4:00pm- 5:00pm Monday

**Discipleship class** 4:00pm -5:00pm every Tuesday

**Prayer and fasting day** every Thursday

**Praise and worship practice** 4:00pm-5:00pm every Friday

**Choir practice** 4:00pm-5:00pm every Saturday

**Sunday service** 8:00am-10:00am

**Bible study** 1:00pm-2:00pm every Sunday

The Christian union has internal and external programs as follows:

**Weekend challenges** – first and second term

**Mammoth Rally** – second term

**CU leaders training** – first term

**Prayer retreat** – every weekend term one each year

**Holiday county and national Kscf conventions** – during holidays

**KSCF week** – one per year

**Elders victory night** – third term every year

Over the years, we have witnessed God change young lives and nurture them to maturity, **Colossians 1:28** ... *“Him we preach, warning every man in all wisdom, that we may present every man perfect in Christ Jesus.”* God has been gracious to us. To him goes all the glory.

In conclusion, we earnestly pray to digitalize our CU services to link with the Alumni and reach the world with the gospel of Jesus Christ. Meanwhile find us on Facebook Makueni Boys CU fellowship, Instagram-Mb city... CU and soon on YouTube. God bless Makueni School – Shalom

**Harrison Mutinda – CU Patron**

**T**he young Christian movement aspires to create a generation of role model Christians having Godly values and playing active and positive roles in the church and society. We thank the Almighty God for giving us an opportunity to serve Him and mankind. The society has touched students lives by carrying out, charity work training of cratering and participating in liturgical activities. We have witnessed Gods faithfulness proverbs 8: 17. I love those that love me and those that seek me diligently find me.

*Ms. Magdalene Musyoki (Patron)*

# Y.C.S. REPORT

## The S.D.A. Society

As psalms 118 : 24 -25 states "This is the year that the Lord has made for MAKUENI BOYS SCHOOL ; Let us rejoice and be glad in it . And thus we cry, save us we beseech thee, O LORD! O LORD, We beseech thee , give us success and let us bounce back". We as SDA thank the fraternity of the school for support enforced and that we shall walk in the high places of the earth as God promises us as a school . God bless you all. Thank you.

*Solomon Kisinga, 10118 - Form 4 North - SDA Chairman*

### (In The Name Of Allah The Most Gracious The Most Merciful)

**I**t's my pleasure to give a brief report on the Muslim society. The Muslim society has been growing rapidly every year, now standing at 71 students. The society has also stood the test of time remaining firm in its core values. Respect, self-driven Mercy and above all adherence to the principles of religion.

I would like to acknowledge the support of our respected aspect of religion in this school by allocating us enough time

to conduct our submissive allegiance to Allah (SW) and for fully sponsoring us during the holy month of Ramadhan. Our sincere gratitude's to our patrons; Mr. Jamal and Mr. Momanyi for offering to help us in our religious demands special thanks to our able mothers Mama Aisha – for equipping our prayers room. In a nut shell the report on Muslims portrays success in their undertakings and opportunities offered to them in general,

 Then wáanza kuuliza whose on our' síde  
 When they had a chance to decide  
 And somehow' they sígined to vice

# Dispensary Report

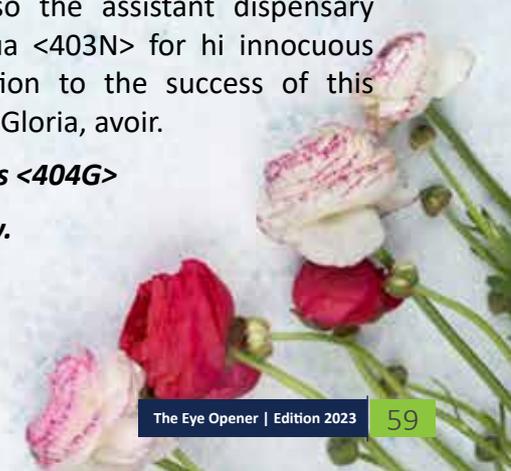

**I**would like to extend my most heartfelt gratitude to the Makueni school administration and fraternity for their continued support to the school dispensary. Having a new nurse is a great help to the school as there is no delays in delivering care.

The nurse is more dedicated and truly she has been a

great asset in keeping the school healthy and kicking. I salute also the assistant dispensary prefect Trever Mutua <403N> for hi innocuous work and contribution to the success of this department soli deo Gloria, avoír.

**By Issah Francis Titus <404G>**

**Dispensary secretary.**

# ENTERTAINMENT AND TRENDS

The entertainment sector goes through diverse changes daily, music being at the peak of keeping entertainment. Numerous genre have been on the rise in the post few decades.

UK drill for example has stormed the world. The like of Pigga D (Pyrex living), Central Cee and Buni Arte the talks of the streets not forgetting our boys from peckham, kwengface , unknown T, Gully and OFB (Oringal Farm Boys).

Grime has been in the scene for some time inactively but now has been revived energetically, with superstars like Dave, Stormy Clavish and skepta

The dominant American rap is also hard to let go, with newly upcoming artists like ice spice, gunna latto and polo G destroying the billboard drake and Chris brown (Breezy ) not leaving the industry after years of wild entertainment . Jamaicans have also recently given birth to their own kind of rap with skeng and skillibeng being the founder.

What would be entertainment without sports , from football , basketball to formula 1 and tennis with young magnificent talent in every sport like vinicicus Jr and Erling Haaland taking the spotlight in football and Ja Morant and Victor Wanyama in the basket world.

YouTube is deeply striking its roots in our daily lives with content creation becoming a close substitute to movies .The likes of chunks sidemen, young philly and our very own Kenyan youtubers also joining the party “Hi Im Ksi”.

# The Age Of Intelligence

The cradle of humankind has evolved over the ages through various stages. Polymaths like Charles Darwin, Plato, Socrates, Shakespeare, among others, have graciously and concisely expressed their thoughts concerning this mysterious evolutionary phenomenon in eternal words. Scientists and philosophers, on the other hand, have also documented their contemplations through holy and immortal equations, as well as elegant sayings. The progressive organizational diagram of human civilization can be simplified as: the Dark Ages, the Age of Reasoning, the Industrial Age, the Telecommunication Era, and now the Artificial Intelligence Revolution...

## The Dark Ages

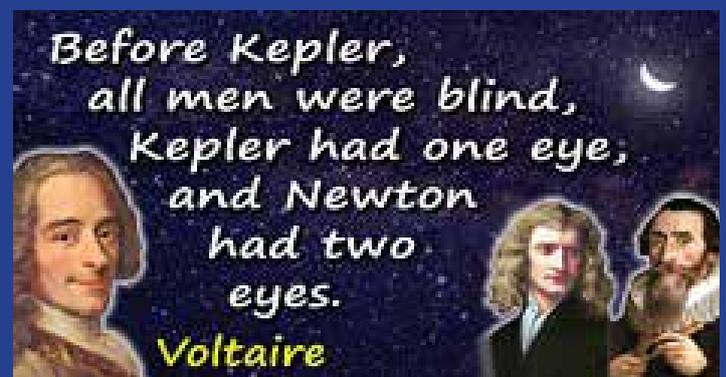

In the periphery of the unknown, mankind's quest for survival was shrouded with a myriad of diverse effusions anchored on pure logical presumptions. Due to the depravity of mental acumen, muscles were exhausted, leading to struggle as the code for survival. Although nature exists for the advancement of man, the revelation of her secrets and how to harness them for progress was an epistemic safe whose key was missing. As their mental faculties matured with time to unravel the mysteries of the universe, hope for a change of the "struggle as the survival code" was shedding faint light rays. In the 16th century, it glowed when a game changer entered the world. Mankind was about to witness a monumental historical and experiential quantum leap into the genesis of a novel and redefining epoch.

## The Age Of Reason

This long search for freedom conceived science. Along with it came pioneers like Galileo, Copernicus, Da Vinci, and many more who immortalized their impact on generations yet to be born. However, an outstanding figure who literally heard the whispers of nature into her

classified truths was Sir Isaac Newton. These men, fueled by curiosity and uncommon intuitive insights into the real nature of the cosmos, began to anchor our understanding upon solid and provable principles (the invention of the laws of physics), and the exponential acceleration in progress was an indicator that there were right captains in the cockpit of human civilization, traveling in the right trajectory. The invention of calculus, technically dubbed "God's mathematical language," forced nature to yield her deepest secrets to man. With this breakthrough in understanding, man could

effortlessly calculate beyond the scope of the earth into deep space. Newton explored it to the extent that he literally unified the heavens and the earth in his famous equation of universal gravitation. This discovery laid concrete foundations for significant progress up to now. The industrial revolution, the information age, and the digital era can be traced to this insight. He became the wonder of his time, the ornament of his species, the boast of his nation, and a praise for many generations. The possibilities hidden in these insights are so profound that recently, when scientists laid hold of the reins of these realities, they came up with another perspective of

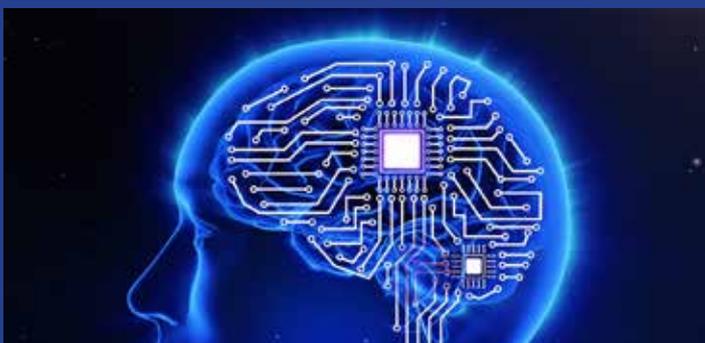

# Artificial Intelligence

probing nature through Artificial Intelligence. Information is by far among the most fundamental tools of progress. The dawn of computers pragmatically evidenced this fact over the decades, turning the 6400 km radius of the earth into a global village. In response to Moore's law, computational power that has been doubling every two years since the 50s has reached the threshold of arguably "replacing" man in terms of intelligence in certain areas. Currently, we are in the cornerstone of spearheading and witnessing paradigm shifts in ways not previously conceivable to the imagination. AI is continually thinning the gap between science fiction and real-life experience. AI is also revolutionizing the world in multiple fields in ways that will soon compel us to redefine our understanding of life as a whole. From social media chatbots to industrial robots, intelligent tutoring, spiritual mindfulness in meditation, relationship coaching, and healthcare AI assistance, the scope of AI's relevance is almost inexhaustible. The counter-logic is when specialists in this revolution and futurists confidently say that it is still in its infancy. On the other hand, AI poses a potential menace to humanity in what is speculated as the "singularity."

## The Hypothesized Singularity.

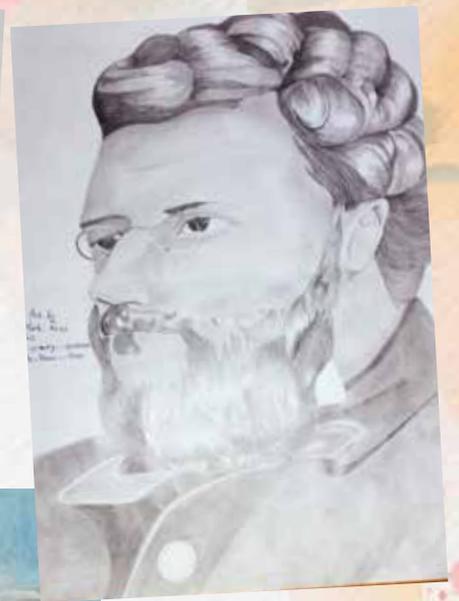

This phenomenal rise in intelligence manifests as a double-edged sword. The potentially destructive side of it has not been concisely addressed and defined. Having in mind that evolution is a fundamental law in nature, it would only be wise to ask: "What is the next evolution

## Food For Thought

of mankind?" The short answer to this intriguing question is the technological hypothetical singularity. The singularity is currently a theorization of the possibility of AI exceeding human intelligence and thus taking control. When will it happen? How will it happen? What nature of civilization will it produce? Is it even true in the first place? We can only conclude that the future holds the answer to these mind-blowing mystic and psychic questions. "Imagine a world where intelligent machines seamlessly coexist with humans, shaping our daily lives in ways we never thought possible. Picture a future where self-driving cars effortlessly navigate through bustling cities, while smart homes anticipate our needs before we even voice them. In this evolving landscape, artificial intelligence is the catalyst, driving a revolution that transcends imagination. From the breathtaking advancements in healthcare, where AI aids in diagnosing diseases and developing personalized treatment plans, to the mind-boggling possibilities of AI-powered virtual reality, where we can step into alternate realms with astonishing realism, the potential seems boundless. As we embark on this extraordinary journey, we stand at the precipice of a new era, where the fusion of human ingenuity and machine intelligence promises to unlock breathtaking possibilities and reshape the very fabric of our existence."

## A,B,C, Drugs

A monster is lurking around in the streets  
Failing up graves filling up pits  
Eyes are red man can't see things  
Leaders of tomorrow are losing their morals  
Smoking bhang doesn't make yup elite  
Drinking alcohol doesn't make you a beast  
It has high chances of making you blind  
I'm not sure if you are getting all this

Sometimes I would just sit down and wonder  
How many would do such blunder  
"Tuende ma -foreign General Meakins  
Before such holds a personal meeting  
"How will it affect my health my family my friends and  
not forgetting my sweetie"

Utakuwa chizi in ales than a wiki  
Drop your grades in a matter of seconds .  
420 is all that you got in your friends  
The only story you can tell to your friends  
Let me tell you that girl that you call your G.F or that  
mbogi from somewhere your friends  
They are going to leave you no huruma

Huruma iliback kuwa estate  
They are going to say you got no humor  
Stories of you getting as will be rumors'  
Hizi riba naskianga kuhusu  
Kuvuruta ma- ngwai ma -foreign na roaches  
Usikuwe na ambitions za old age  
Kufika ni ngumu kuliko maths contests  
Drugs zitakupea tu losses  
In the end utaenda up being hopeless  
All your life ulidai kuwa doctor  
Saizi ni drug transporter.

Unapimwa ati bangi inafanya upite  
Ati pombe inakufanya coolkid  
Middle finger to all those liars  
Kenye wanataka ni doh na uaibike  
Ati sigara hufanya uwe rapper  
We si rapper we ni student  
Think twice kabla upige puff  
Unapiwa uji- waste tu bure

END.

# An Open Letter to Students

## BECOMING A WINNER

Dear Student,

Read this letter with an open mind and an open heart. I'm speaking to you frankly because I know you're equipped to make the best out of you.

Isaac Asimov said that education isn't something you can finish. Meanwhile, in Einstein's words, education is not the learning of facts but training the mind to think. These aphorisms are easy to agree on but yet hard to practice in real life.

Spend time with people who have the same (or similar) values and goals as you. All of us are influenced greatly by the people we surround ourselves with. Choose to surround yourself with people who will inspire you to become a better person and student.

Every choice you make shapes your character, so choose wisely. As a student, you make many of choices everyday. Every decision shapes your character and destiny, so don't take it lightly.

Look for the good in every situation and always dream big. That way you will be a winner. In his poem "Andrea del Sarto," Robert Browning wrote, "Ah, but a man's reach should exceed his grasp, / Or what's a heaven for?" In other words, to do great things, aspire to achieve what appears illogical and unachievable; you should have overconfidence to dream and chase the absurd.

Our God is Almighty and loving. Put your trust in Him and may you achieve your dreams. God bless you all.

*Sincerely yours,  
Teacher (Mr. Liku)*

## SOME GOLD FOR MY STUDENTS

Dear Students,

I salute you all. I trust you will put into practice my unsolicited genuine counsel for you.

All students in school and particularly those in science classes are taught by more or less the same teachers; they are presented with equal advantages and similar opportunities for them to grab. What makes the difference in academic performance is individual decision and discipline. Success is an inside job. It is depended on the state of mind of a student. It begins from within and later on is manifested and felt by the outside world. When you change your way of thinking, you become a better student. When you dream big and envision an exciting future such as being a doctor, a teacher, an engineer, a pilot, a tech savvy etc., you become a better student. That way you train yourself towards translating your dreams into concrete reality.

By managing your time properly, consulting where you are faced with obstacles, having written plans and strictly abiding by them will positively impact your performance. Vow to yourself never to quit. Giving up is a sign of weakness. Little daily progress will eventually culminate big academic achievement.

*Yours Chemistry Teacher*

*Mr. Kiiti F.K. Deputy HoD-Clubs & Societies*

# TEACHER OF THE YEAR

## A DATE WITH THE CHIEF PRINCIPAL

**Could you please give us your profile, as in who is F.M. Mutua?**

Let me start with my name, I am Francis Mutunga Mutua. My early school life was in a local primary school. I must say I really worked hard because as from class 4 all through to class 8, I maintained the top position in all exams. Needless to say, I scored A's in all subjects in my final primary school exam except for one subject, Kiswahili – which I managed a B+. I proceeded to High school and later joined Kenyatta University for B.Ed (Science – Maths/ Physics). Later on, I enrolled for a masters degree program in Educational Administration and Planning at the University of Nairobi graduating with M.ED. I am currently writing my phd in Educational Administration at the same university. I have also undertaken other post graduate studies and managerial courses in the education sector. I have worked in many positions in the teaching profession starting as a classroom teacher, to HOD, Senior teacher, deputy and finally principal. This is my fifth school as a principal.

**With the vast academic qualifications you possess, have you ever considered becoming a lecturer at the University?**

Becoming a university lecturer is not within my immediate plans. I would consider, perhaps, a higher appointment. I am very much attached to this profession (teaching, school

Management and Administration). I derive my joy in seeing young people grow, pass through my hands and become successful people in life. I think that is one great motivation about my job.

**How do you find your stay in MB – City so far? Where do you see the school in the near future?**

So far, so good. Makueni Boys is a great school with a lot of potential. The fact that our boys are good and bright spells the potential of the school becoming the top institution in the country. This of course, requires the cooperation of teachers, BOM, parents and other stakeholders. I see the school mean score improving to 10+ in coming years. We target 100% transition to university. We want to engage parents, Ministry of Education and other stakeholders for infrastructure development in a bid to provide for the school's increased enrolment.

We want to embrace a holistic approach where the school does not only excel academically, but also does well in co-curricular – nurturing of talents. I see the school becoming fully CBC compliant offering all the three pathways of CBC in the senior school level. Makueni Boys' is a school with a very great future.

**Since you reported, you have demonstrated unprecedented kindness by awarding the**

**top-scorers in both academic and non-academic affairs. The act has since earned the moniker 'Handshake'. What is your motivation behind that?**

The 'Handshake' is a motivation strategy. It also seeks to train the art of charity to the young people. It might appear inane at the moment but the impact will be felt in the long run when the boys become adults and financially stable, they will definitely and readily give back to the community.

**What are some of your hobbies and how do you spend your ordinary day off work?**

I am an avid reader of books. I have made reading my culture... my style. I am a fan of football. I played in my school's football team in primary. I also watch football and I am an ardent fan of an English Premier league team which I won't disclose. I travel a lot, I have been to Egypt, Israel and some neighboring countries. I usually do not have any day off work; I am usually busy. If I am not in the office, I am somewhere out of school in an office or meeting attending to official assignments. Saturdays are for community and social responsibilities and Sundays I do fellowship.

**If not the teaching profession, what else would you have wanted to be?**

While growing up, I strongly wanted to be a medical doctor. That never came to pass, not because I didn't qualify, but perhaps due to lack of proper career guidance.

**What is one thing you can say you are most grateful for?**

A lot of things, the grace of God has seen me where I am.

**What are your expectations for the current candidate class?**

The 9.3+ mean score target is a reality. I am contented by the commitment the students and teachers have demonstrated. The class will put the school in the right trajectory. I trust the class will set the bar high for the subsequent classes. Who said we can't be the best school in the country? Wasn't Kwach Okoth the best student nationally in Olympiad Mathematics Contest? Aren't we alive to the fact that the school once produced 2 students in the top 10 best KCSE performers in Kenya?

**Who is your role model?**

That is quite interesting. I have aspirations that shape me. I have goals that I pursue. I should perhaps start thinking who should be my role model.

**What advice can you give to the young people?**

Embrace hard work and discipline, then all good things will be at your disposal.

**Interview conducted by Yusuf Duro, Felix Muuo and Mr. Liku P.**
